| Cylinder Honing | Hone cylinder and fit piston (each) XL/Buell 1275 kit, Silver, 86-03 | 2 | 45.00 | 90.00T |
| | The above engine kit has silver small fin cylinders included (correct fin style for 86-03-up bikes). The cylinders are also available in black or black with highlighted fins, same price. The above also includes the optional upgrade to a Cometic EST full top end gasket set, which is recommended. Without this upgrade, the kit comes with head and base gaskets only and sells for \$699.95 | | | 739.95 |
| Ring Gap and Pi... | Gap Rings and Assemble into Pistons This is our optional preassembly service. We precision gap your rings using our high-end gapping machine which does a perfect job every time, and then we assemble the pistons and rings into the cylinders and ship them in sealed plastic bags, ready for installation. This service greatly simplifies installation and eliminates the need for any special tools on your end. | 1 | 40.00 | 40.00T |

| 898562 | XL 600 Lift Crush Hammer Performance Cam Set, 91-99 This advanced cam set has a special lobe design to minimize valvetrain noise while still producing impressive power gains. | 1 | 350.00 | 350.00T |
| HP45PG | Bronze Oil Pump Gear, Sportster/Buell | 1 | 98.00 | 98.00T |
| Grindlock-9199 | Pinion Gear Locking Tool, 1991-1999 XL, With Mounting Bolts XL's use a steel oil pump drive gear that becomes failure prone at higher power levels, and when it fails, it's really ugly. This was an especially bad problem with Buells due to their higher power levels, and HD finally came out with this bronze drive gear in 2006 to solve the problem, but they never put it in XL's. It's a nice upgrade when hopping up an XL, especially if you're in the cam box for a cam swap anyway, and it's cheap insurance against a catastrophic failure. The locking tool listed is necessary for proper installation. | 1 | 50.00 | 50.00T |

| | Corrections to the valvetrain geometry that we'll make as a part of setting up your heads for the cams above, in combination with the thinner gaskets used to create a tighter squish clearance, create the need for somewhat shorter pushrods. These are high quality .065" wall heat treated chrome moly pushrods with Mae West ends. You cannot buy a finer pushrod. | | | |
| 900-4098A | S&S 1.725 ratio Roller Rocker Arms, set of 4 | 1 | 534.95 | 534.95T |
| 90-4036 | Rocker Shaft Set Roller rockers are normally used at this valve lift to reduce side loading on the valve. We also use high ratio rockers to get more lift without creating additional cam box clearance issues. Rocker shafts are recommended because they are a high wear item. | 1 | 33.95 | 33.95T |
